

2G or 3G – And why?

No, we are not happy about this form of regulation.

However, we, the **BERNER & BROWN**, the Tapasbar in the Cathedral Quarter are a small restaurant and we also try to get through these hard times with all their challenges relatively unscathed.

In order to survive economically and to continue to provide our services, our joie de vivre and love for our work, our lovingly prepared food and drinks for you in the future, we have to go this way. We also have a responsibility towards our employees, because they are just as important to us as you as our guests.

The responsibility to our employees is also to guarantee a safe workplace. We can only give this guarantee to all our wonderful employees by following the 2G rule, at least in the evening.

The terrace season is coming to an end, so we, and of course you as our guests, have fewer seats available to ensure turnover accordingly. Therefore this step.

If you want us to still exist in the coming year, you can understand our request and we sincerely hope for your understanding. We are sure that there will be better times in the near future. We hold on and wish you all only the best and say thank you.

The rules

For lunch business we offer you the 3G rule. For lunch you are very welcome to visit us

- tested (test center or pharmacy),
- vaccinated or
- healed.

In this period we will, as before, pay attention to 1.50 m distance between the tables and will not be able to occupy the counter. Therefore, there will be fewer seats available. We are looking forward to your visit.

For ***evening business***, we apply the **2G** rule in the guest room. In this case it means that exclusively only

- vaccinated and
- healed guests

have access to our restaurant. This means that we can dispense with all safety distances between the tables and our vaccinated and recovered guests, as well as the mask requirement. In the evening we can offer you the tapas bar and occupy all the seats.

Please note this ***requirement*** and have your vaccination cards and/or your QR code in the Corona Warnapp ready on your smartphones. In addition, an identity card is indispensable for control is indispensable.

Otherwise, as soon as you are seated in the restaurant, please register via the QR code on the tables and then simply have a relaxed and enjoyable time with us at

BERNER & BROWN,

forgetting for a short time the life outside the door. ***Enjoy life.***

On the ***terrace*** everything remains as usual. Outside everything is allowed. Yes, we will leave the terrace standing and open also in autumn and winter and will keep it ready for you, weather permitting. This includes our fire columns. We are aware that the terrace is, of course, only a small drop in the socializing and will probably just stand there deserted as the temperature continues to drop, but still ... We try to do justice to all of you.

We say thank you for your understanding

Your team of the BERNER & BROWN
